– Continuing education for progressive farmers

## Cattle Foot Trimming

All day Wednesday 28th and Thursday 29th July 2010  
Repeated on Wednesday 29th and Thursday 30th September 2010

LVS Farm Animal Practice, University of Bristol, Langford, Somerset

Regular and effective foot trimming is an important part of any lameness control and prevention programme. This intensive, two day practical course will teach you the principles and practice of Dutch Five Stage functional foot trimming in cattle, including:

- Anatomy of the bovine foot
- Theory of functional foot trimming
- Principles of lameness diagnosis and treatment
- Wet lab session to practice foot trimming techniques
- On farm foot trimming sessions
- Hints and tips for successful application of blocks

**Cost £200 per person**  
(including VAT)

Lunch will be provided on both days. Beginners are very welcome.

Call us on **01934 852650**  
to book your place or find out more

Langford Veterinary Services farm animal practice is committed to providing high quality, practical training for commercial farmers and small holders alike. Call the practice or visit our website to find out about the range of training courses on offer in 2010.
