LVS Farm Animal Practice, University of Bristol, Langford, North Somerset

Langford Veterinary Services farm animal practice is committed to providing high quality, practical training for commercial farmers and small holders alike. Take a look at the range of courses on offer this summer and autumn.

| | | |
|--|---|---|
| Cattle Essentials – Effective Foot Trimming | A two day practical foot trimming course teaching the principals and practice of Dutch 5-Stage functional trimming. Beginners welcome. | All day Wednesday 28th and Thursday 29th July 2010 |
| Small Ruminant Essentials – Keeping Sheep and Goats | A comprehensive introduction to keeping sheep and goats in two evening classes and an optional practical workshop. | Evening of Wednesday 4th and Wednesday 11th August 2010. Practical session - Afternoon of Wednesday 18th August 2010 |
| Cattle Essentials – Effective Foot Trimming | A repeat of the July Foot trimming Course, with the opportunity for participants who came to the July course to develop their skills further. | All day Wednesday 29th and Thursday 30th September 2010 |
| Small Ruminant Essentials – Lameness Control and Prevention | An update on new developments in the control and prevention of lameness in sheep and goats. Is foot trimming always the solution? | Afternoon of Wednesday 22nd September 2010 |
| Lambing Essentials | An extremely popular practical workshop, covering the principals and practicalities of lambing to get you ready for the 2011 lambing season. | Afternoon of Wednesday 1st December 2010 |
