

# TATE™ Canine Elbow Replacement...

See us at  
**BSAVA**  
Stand 126

[www.langfordvets.co.uk](http://www.langfordvets.co.uk)

## ...now available at Langford!

Until recently, surgical options aimed at alleviating pain and improving limb function in cases of severe elbow osteoarthritis were limited.

**TATE elbow replacement** is indicated for dogs with **advanced elbow OA** with **lameness** that is poorly responsive to conservative management.

Langford Veterinary Services are now **one of only a handful of hospitals** in the U.K. whose surgeons are certified to perform this surgery. We are able to offer this surgery at the highly **competitive price of £2500 per elbow.**

Please telephone or e-mail our orthopaedic surgeons for more information on this surgery.
