of a rapidly
developing
service?**

Small Animal Orthopaedic Surgeon

We are looking for a dynamic and motivated Orthopaedic Surgeon to be part of the development and growth of the services offered to our clients.

You will be working as part of our specialist team of six Diplomate surgeons within our newly built state of the art Imaging, Surgical and Intensive Care facility equipped with 5 new theatres, CT, MRI and extensive array of surgical equipment, all ensuring highest standard of diagnosis, surgical treatment and aftercare for animals under our care.

The orthopaedic service treats small animals suffering from a wide range of musculoskeletal disorders and treatments including:

- Total Knee Replacement
- Total Hip Replacement
- Micro Total Hip Replacement
- TATE™ Elbow Replacement
- Sliding Humeral Osteotomy
- Tibial Plateau Levelling
- Arthroscopic Investigation and Surgery

- Double / Triple Pelvic Osteotomy
- Complex Fracture Repair
- Growth Deformity Assessment and Correction
- Limb Sparing for Osteosarcoma

As a teaching Hospital, this post would ideally suit either a Diploma holder or Board eligible candidate. The position offers a teaching and research environment in which to both learn and be supported.

With a good remuneration package and a performance related pay scheme, this is an excellent opportunity at an exciting time of investment and development.

For further details, please contact Lynne Hill, Chief Executive on **0117 928 9562**
