

Langford Veterinary Services

Job Description

Job Title: Radiographer

Reports To: Head of Imaging

Job Purpose:

The main purpose of the post is to ensure the smooth operation of the clinical activities within the hospital by assisting with and performing diagnostic imaging procedures including radiography, fluoroscopy, MRI and CT scanning, maintaining excellent communication with the clinicians and nurses, helping to ensure that the area runs efficiently and to maintain high standards of cleanliness and tidiness.

Principal Accountabilities:

Performing and assisting with diagnostic imaging procedures of both small (and large animals initially) and routine upkeep of the imaging areas.

Specifically, to include:

- Assisting with running the daily list, liaising with clinicians and nurses ensuring that the service is run efficiently.
- Maintaining accurate records of imaging procedures including accurate billing at the time of each procedure
- Ensuring QA of equipment.
- Ensuring proper restraint and positioning of patients undergoing radiography to ensure good clinical radiographs.
- Ensuring appropriate billing of all procedures
- Assisting with clinical teaching and assessment of Veterinary students and trainee veterinary nurses
- Assisting with cleaning and re-stocking of the area, equipment maintenance issues, stocktakes and ordering
- Maintaining a good working relationship with all team members
- Communicating in an effective and pleasant manner with clients and colleagues
- Carry out all other reasonable duties as requested by the line manager
