

Langford Vets Ltd

Job Description

Job Title: Diagnostic Imager
Reports To: Clinical Area Lead (Ancillary services)

Job Purpose:

- To provide an excellent diagnostic imaging service to customers
- To develop and expand the diagnostic imaging service to ensure integration and concordance with concurrent developments within the surgery, imaging, neurology and medicine services
- To communicate and liaise effectively with clinicians and nurses working within other services to ensure that caseload is planned and completed effectively and efficiently
- To provide outpatient referral service and Image reading services.
- To provide clinical teaching to undergraduate students and clinical imaging scholars as and if required

Principal Accountabilities:

- To ensure the continuing growth of the referral caseload by providing an efficient and effective diagnostic imaging service with an emphasis on high quality customer care
- To liaise with the imaging clinical lead to ensure that requirements for student teaching are met
- To liaise with the clinical lead to ensure that supervision of imaging scholars are met by the diagnostic service
- To communicate with other clinicians and nurses to ensure that excellent imaging service is provided for the surgical and medical caseload

- To manage the Outpatient Referral Service in such a way that referring veterinary surgeons and clients receive the best possible service
- To have students assigned to you on their clinical rotations and on EMS as required and as necessary
- To contribute to the assessment and delivery of appraisals of students on their practical rotation when applicable
- To perform and carry out imaging services to the standards expected by the RCVS
- To undertake relevant training as requested in order to expand services offered within Langford Vets
- To record all case records accurately
- To support growth of the service through involvement in marketing initiatives undertaken by Langford Vets
- To follow all Langford Vets protocols and policies
- To comply with the debt protocol
- To ensure that Veterinary Nurses are supervised to the required level
- To ensure the correct pricing and charging of all procedures
- On occasions, when asked and agreed to undertake some formal teaching duties
- To perform administrative tasks as are required by the practice manager and the SAH Hospital Director
- To undertake any reasonable requests made by your Manager
